

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph which begins on page 9, line 4 and which ends on page 9, line 9, with the following replacement paragraph:

In some instances the source of the cermet will not contain any non-cermet component. In those instances the cermet is beneficiated solely by comminution to produce the concentrate of this invention. Since there are no non-cermet components to be removed, this beneficiated cermet is the same as the beneficiated ~~insert~~ inert anode material from which non-cermet components have been removed as part of the beneficiation process.
